MUSIC, MIND, MOVEMENT & TECHNOLOGY WORKSHOP

The Music, Mind, Movement and Technology (MMMT) is a hybrid satellite workshop around the 23rd International Society for Music Information Retrieval Conference (ISMIR 2022). MMMT is an attempt to increase the dialog between the fields of Music Information Retrieval (MIR) and Music Cognition. This 2-day workshop brings together leading international researchers for a series of talks highlighting interdisciplinary research and facilitating interaction and exchange of ideas around various themes. The scope of MMMT extends across the fields of computer science, musicology, cognitive science, social computing, information science, electrical engineering, amongst others.

2 - 3 December 2022

Hybrid workshop

INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY
H Y D E R A B A D

भारतीय विज्ञान संस्थान

Workshop chair
Vinoo Alluri
International Institute of Information Technology Hyderabad

SPEAKERS

Opening Keynote

Jean-Julien Aucouturier
FEMTO-ST Institute

Revisiting "The Difficult Dialog Between MIR and Music Cognition"

Music and Health

Kat Agres
National University of Singapore

Suvi Saarikallio
University of Jyvaskyla

Music and Culture

Nori Jacoby
Max Planck Institute for Empirical Aesthetics

Tuomas Eerola
Durham University

Music Perception

Anja Volk
Utrecht University

Petri Toiviainen
University of Jyvaskyla

Music and Gestures

Martin Clayton
Durham University

Marcelo Wanderley
McGill University

Music and Neuroscience

Blair Kaneshiro
Stanford University

Peter Keller
Aarhus University
